

SHIPPING YOUR CITRUS IN A COOL & RED STYLE

As one of the largest providers of refrigerated transportation in the world, Hamburg Süd will provide customers globally with unparalleled equipment availability – with the largest and the most advanced container fleet in the liner shipping industry serving customers with a group combined pool of more than 350,000 reefer units.

Enjoy the fruits of our experience

Our dedicated Reefer teams at our offices are all well-trained with Cold Chain Logistics knowledge and have vast experience making us the choice for your citrus-focus shipment.

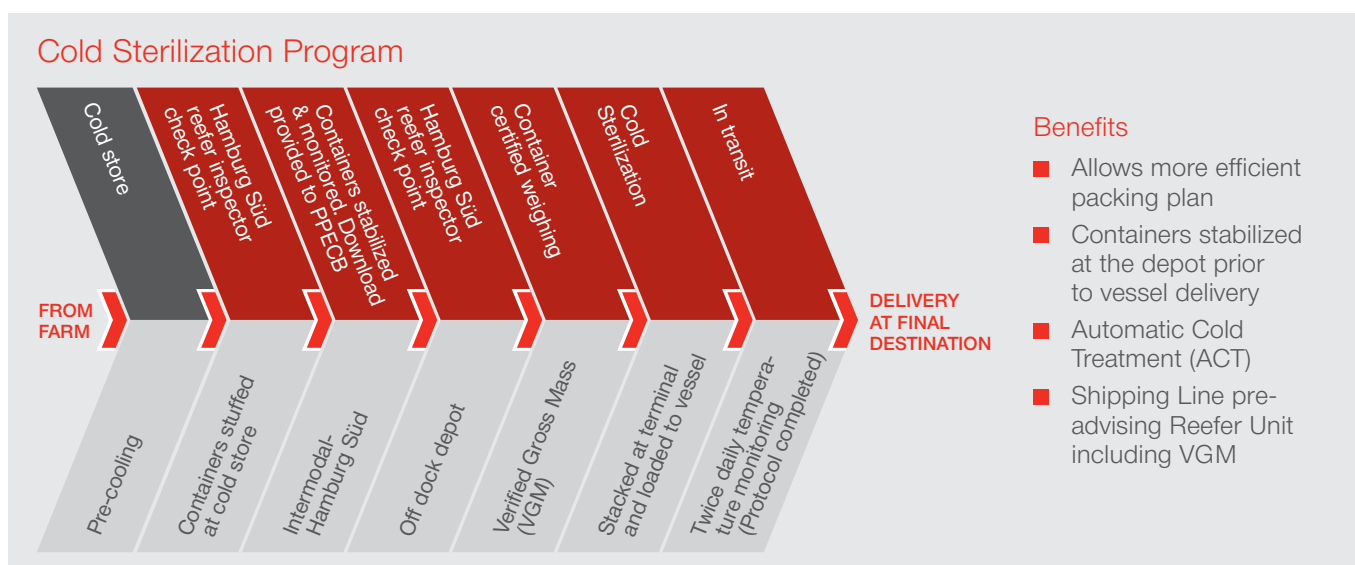

Specialized citrus service

Cargo readiness – All our refrigerated containers are pre-tripped to preserve the highest food safety standards and to ensure optimal temperature control performance.

Service features in South Africa

- Cold Treatment is offered from Durban, Port Elizabeth and Cape Town to Japan, Korea, Taiwan, China, Indonesia and Thailand
- In all three load ports exporters benefit from the added advantage of carrier haulage
- All the convenience of our exclusive off-dock facility in Durban
- Temperatures maintained on a step-up basis according to the correct set-point protocol
- Our local Reefer Technicians conduct fail-safe checks at the pack station and the port. We monitor your reefers twice-daily, ensuring optimal product integrity

When it comes to shipping citrus, Hamburg Süd's approach defines the industry's best practice.
